

The Year Jar

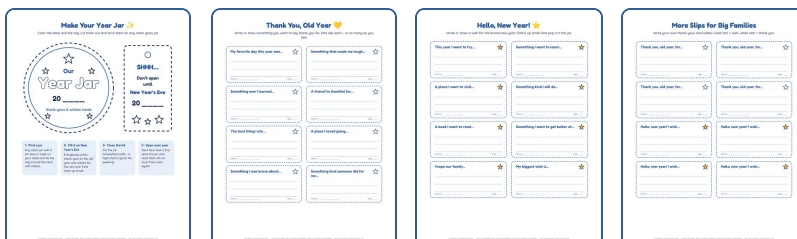

Color the door first! 

Little Bunny whispers...

"Esther wished to learn to whistle. I wished for more carrots. Daddy Bunny wrote 'nap'. Twice."

4 sheets · jar label + 16 slips · Ages 4–10

Write thank-yous to the old year and wishes for the new one, fold them up and seal them in a jar. Then open it together next New Year's Eve!

How to print: Regular paper, single-sided, 100 % / "actual size". You also need a clean glass jar with a lid, glue or tape and a piece of ribbon.

Make Your Year Jar ✨

Color the label and the tag, cut them out and stick them on any clean glass jar.

1 • Find a jar

Any clean jar with a lid. Glue or tape on your label and tie the tag around the neck with ribbon.

2 • Fill it on New Year's Eve

Everybody writes thank-yous to the old year and wishes for the new one. Fold them up small.

3 • Close the lid

Put the jar somewhere safe – a high shelf is good. No peeking!

4 • Open next year

Next New Year's Eve, open the jar and read them all out loud. Then start again!

Thank You, Old Year
